

The McPherson Eye Research Institute

presents:

Vision at the Arboretum

Join us for a family-friendly educational event on the vision of birds!

SOS (Songbird Ocular Syndrome): A Tale of Cicadas, Songbirds, and Vitamin A Deficiency

Dr. Valerie Shearn-Bochsler
MPH, DVM, DACVP (U.S. Geological Survey)

Eyes in the Sky: The Biology of Vision in Birds

Prof. Freya Mowat

BVSc, PhD, DECVO, DACVO, MRCVS (School of
Veterinary Medicine; SMPH, UW-Madison)

After the talks:

- **Meet a live Great Horned Owl, Peregrine Falcon, and Broad-Winged Hawk** from Hoo's Woods Raptor Center
- **Go on a guided walk through the Arboretum** with an expert birder
- **Learn about local raptor rehabilitation and conservation efforts** from Wings Raptor Center

Free and open to the public.

RSVP appreciated but not required.

Arrive at 9:45 am for complimentary muffins, bagels, fruit, and beverages.

Please note: Due to the presence of live birds, we kindly ask that pets and service animals remain at home.

*Hoo's Woods
Raptor Center*
